A MOTHER'S FUND.

Every Mother in Fort Wayne Will Be Asked to Give Her Mite.

A most enthusiastic meeting of the ladies of the city was held in the parlors of the new Y. M. C. A. yesterday afternoon, at which time a ladies' auxiliary was organized. The officers are as follows: Mrs. John W. Hayden, president; Mrs. L. D. Keil, vice-president; Mrs. R. M. Hays, secretary, and Mrs. E. H. McDonald, treasurer. After the organization the first thing in the order of business was to know the true financial condition of the association and upon the learning that there were a number of bills to be paid they determined to raise a fund known as the "Mother's Fund," and that it should be $1,000, and to that end apportioned the city in districts and a systematic canvass will be at once began and the success is assured we know. There is not a mother in the city but will be glad to join in this grand work inaugurated by the mothers for their sons. One lady has said, "If the people could just see this building they would not have to ask for aid," and it's true. Such a house any city could well afford to be proud of and we know our citizens are pleased with the building reared by their generosity.

Mr. Edgerton's Hicksville Stables Burned.

Last Saturday night fire was discovered in the stables of United States civil service commissioner, Hon. A. P. Edgerton, of this city, at Hicksville, O. So great were the flames that for a time it looked as if the whole city would be enveloped in the fire, but fortunately for the town nothing but the three barns of Mr. Edgerton and their contents were destroyed.

ANTI-MAHONE!

The Republican Opponents of Mahone Hold a Convention and Elect Delegates to the Chicago Convention.

PETERSBURG, Va., May 18.—At the republican state convention yesterday two sets of committeemen were reported from the Seventh district. After much confusion the question was laid aside temporarily and the convention took another recess till 9 p. m. After the convention re-assembled two delegations were reported from the Richmond district.

Ex Congressman John D. Wise got the floor and made a hot speech. He proposes to go to Chicago with his complaint and appeal to the national convention. In conclusion he called on those who were opposed to the unit rule to follow him out of the hall. He then retired, and perhaps fifty voters went with him.

PETERSBURG, Va., May 18—The Anti-Mahone meeting remained in session till early this morning. The committee to prepare business reported and the report was adopted. It provides for a committee of twenty five to issue an address to the republicans of the state and submit plans of organization. Senator D. F. Houston, of Roanoke, was elected chairman of this section of the party. The convention then proceeded to elect delegates-at-large to the Chicago convention as follows: Gen. V. D. Groner, Norfolk; Samuel M. Yost, Augusta; R. A. Paul (colored), Richmond, and C. A. Herman, Montgomery.

Ex-Governor William E. Cameron and ex-United States Senator John F. Lomas were nominated electors at large.

On motion of Hon. John S. Wise the platform to be agreed on at the Chicago convention was adopted as the platform of the party here.

At 2:30 a. m. the convention adjourned with three rousing cheers for Blaine.

CHURCH CONVENTIONS.

The General Conference of the M. E. Church at New York City.

NEW YORK, May 18.—At the general conference to-day Bishop Hurst presided. The committee on missions reported favorably on the appointment of Deacon Esses. Dr. Queall offered as an amendment that the conference board shall make a report yearly to the annual conference upon the names of all persons appointed and the work done, and that the continuance of the office of all appointees shall depend upon the action of the conference. The amendment was carried and the report adopted. The report of the commission on lay and ministerial delegates favored equal representation. This would make the number of lay delegates 113.

THE WESTERN FLOODS

Show no Signs of Abatement and Further Rises are Expected.

SPRINGFIELD, Mo., May 18.—From Fayetteville, Ark., comes the report that it has rained incessantly for thirty-six hours, and White River, usually a peaceful stream, is now a rushing torrent, five miles wide. Severe lightning also prevailed in one or two instances, doing damage to property. A washout is reported on the 'Frisco railroad, near Winslow, 150 miles south of this city.

QUINCY, Ill., May 18—The flood in this district gives no signs of abatement. The decline of an inch and a half up to 6 o'clock this morning was due solely to the relief afforded by the numerous breaks in the two levees, which permitted the vast lakes of water to overflow the basin. Since that the river has been on a stand and a further rise is certain.

Charles L. Jewett Chairman.

INDIANAPOLIS, May 18.—The democratic state central committee met yesterday afternoon for the purpose of electing a chairman to succeed Hon. John R. Gordon, deceased. Charles L. Jewett, of New Albany, was selected, with Hon. Si Sheerin as vice-chairman. No secretary of the executive committee was selected, the secretaryship being left in the hands of the chairman. A committee was appointed, consisting of ex-Chairman Richardson, P. H. McCormick and John A. Holman, to draft resolutions of respect and sympathy concerning the death of Mr. Gordon. Several of the candidates on the state ticket were present.

The Myers Contempt Case.

COLUMBUS, Ohio, May 18—A motion for leave to file a petition in error to the lower court in the case of Allen O. Myers, sentenced to serve three months in the county jail for alleged contempt of court, was argued in the supreme court yesterday, and a decision is expected on Tuesday. The names to compose the jury in the tally-sheet forgery case in which Myers is defendant, and set for hearing May 23, were drawn yesterday. The extra names will be stricken from the list Monday.

David Farquahr and Mrs. Chas. Cook, who eloped some time ago, are believed to be at at Omaha, Neb. Mr. Cook has written for their arrest.

THE TARIFF BILL.

Occupies the Attention of the House and Mr. Randall Had the Floor, This Morning.

WASHINGTON, May 18.—In Randall's speech on the tariff bill, he said: "The remedy he proposed was through the repeal of the internal revenue tax, as well as by a tariff, as promised to the people by the democratic convention of 1884. The reduction provided for by his bill aggregated $77,000,000 on the internal taxes. Those taxes had always been last to be levied and first to be repealed, when no longer necessary.

He pleaded with his democratic friends to not undo the good that has been done to the manufacturing industries by the protective tariff and read from Jefferson, Monroe and other democratic forefathers to prove that protection was a fundamental democratic principle.

He closed with a tribute to the results and principles of protection, and asked that they be maintained, and maintained through the efforts of the party that instituted them.

Messrs. Foran, of Ohio; Wise, (dem.) of Virginia, and Kelly, (rep.) of Pennsylvania, were the first to extend congratulations to Mr. Randall at the conclusion of his speech.

The house was thrown into an uproar at the conclusion of Randall's hour. A request was made that Randall be allowed to proceed, but an objection was made by Mills, an objection which was greeted by jeers and hisses by the republicans. Mr. McKinley then yielded him a portion of his time, but by an amicable arrangement suggested by Breckenridge, of Kentucky, Randall was permitted to proceed without limitation of time. Mr. Randall concluded at 12:35 and was followed by McKinley, of Ohio.

Mr. McKinley completed, at 2:40, what was considered by many as the best protectionist speech of the debate and he was enthusiastically applauded and congratulated by his party colleagues. He was followed by Breckenridge, of Kentucky.

A GIRL OUTRAGED.

Wm. Graham, a Brutal Chimney Sweep, Assaults a Daughter of Geo. Varner.

This morning a diabolical crime came to the knowledge of the police.

Wm. Graham, a chimney sweep, who has a wife and family at Bluffton, has been stopping at the home of George Varner, at 161 East Washington street. Graham and Mr. Varner are old friends, and when in the city the former has enjoyed every hospitality at Mr. Varner's home

This morning Mr. Varner, who is employed by Contractor Joe Derheimer, left his home as usual to perform his daily task. Mrs. Varner is equally as industrious and after doing light work at her own home, went to the residence of County Commissioner Brannan to assist in some household work.

Her little daughter, ten years old, was left at home alone with Graham. Some time during the morning the brutal fellow dragged the child into his room and there assaulted and outraged her.

Mrs. Varner had a premonition all morning that something was wrong. It so seized her mind that she had to leave Mr Brannan's house and hurried home. Her worst suspicions were realized, for the little girl related her awful experience. The villian Graham was still in the house, but seeing the mother he fled.

He went direct to where Mr. Varner was at work and sought his forgiveness. The infuriated father started to kill the man; but he fled in a southwesterly direction, closely pursued by the police and a sheriff's posse, who were notified.

It is supposed the man is en route to Bluffton, but telegrams are there to greet him. No punishment is too severe for this fiend in human form.

After Pinkerton Men.

OMAHA, Neb., May 18.—Considerable excitement still prevails at Platsmouth over the wounding, Wednesday night, of Peter Rogers and John Dill, Brotherhood firemen, and Special Officer Kane, by a Pinkerton man, named Goodwin, employed by the Burlington and Missouri River Co. Goodwin narrowly escaped being mobbed, and the infuriated Brotherhood men and their friends proposed at one time to drive the entire Pinkerton force into the river.

Horse Sale.

CLEVELAND, O., May 18.—The sales at the Fossig auction yesterday, fifty-five horses brought $20,415. The best sales were: Ad Tarry, nine years, to J. T. Parkins, Brooklyn, N. Y., $1,000; Poesey Clinker, ten years old, to J. A. Gleesen Kamp, Pittsburg, Pa., $2,025; Tolono, eight years, to I. M. Miller, New York, $1,000.

Guilty of Murder.

ST. LOUIS, May 18.—A special from Fort Smith, Ark., says that the grand jury found an indictment to-day of murder in the second degree against E. C. Bonidinot, jr., clerk of the Cherokee senate, for killing B. H. Stone, editor of the *Telephone*, Tahlequah, I. T., last winter.

Two Killed.

DETROIT, May 18.—A special from Negaunee, Mich., says: "By an explosion of dynamite at the Palmer mine, near here, this morning, at 1:30, Fred Hanburg and Chas. Sundbery were instantly killed."

LOCAL OPTION!

The Supreme Court of Michigan Declare the Local Option Law Unconstitutional.

LANSING, Mich., May 18.—The supreme court has unanimously declared the local option law unconstitutional. The ground upon which this decision is reached is very simple. The law is a violation of article 14, section 20, of the constitution. Although other points are touched upon incidentally the article of the constitution violated provides that no law shall embrace more than one object, which shall be embodied in its title. The local option law is entitled, "An act to regulate the manufacture and sale of liquors," which is not at all what the law is for.

THE MARKETS.

NEW YORK, May 18.—The stock market was irregular at the opening and though advances were shown by the first prices, the numerous declines were the most important. FALSE TEETH!

An Indianapolis Woman is Strangled to Death by Sucking Them Into Her Windpipe.

INDIANAPOLIS, May 18.—Mrs. W. D. Ligon, of Whitesboro, Texas, came to the surgical institute, in this city, a few days ago, to be treated for the morphia habit, and she was placed under the care of an experienced nurse. Yesterday, before she had arisen, the nurse discovered that she was suffering with a paroxysm, and summoned the physicians, but she strangled before anything could be done in relief.

It was then discovered that during the paroxysm a set of lower teeth had been dislodged and had been sucked into her throat, closing the wind-pipe. The lady was aged about forty-five, and comes of a wealthy family. Her remains will be shipped south for burial.

THE WATER WORKS.

The Mayor, Trustees and Councilmen Have a Chat Over the Department Affairs.

Mayor Mubler, the water works trustees and the council committee met last night to talk over the affairs of the department.

The trustees will ask the council to name a committee which, with them, will be impowered to visit cities that get a water supply from wells, with a view of establishing a like system in Fort Wayne. The expenses of the tour are to be paid out of the water works fund, and it is probable that the whole council board will have a longing for the experience

The question of water rents was also talked over and a reduction is probable. There are two sections of the law under which water works monies are collected, but now, and since the works were established, one section was overlooked, because its existence was not known until six months ago.

The first section says the trustees shall levy only sufficient water rentals on consumers to pay the expense of "managing and operating the works."

The second section, which has never been enforced, says that the trustees, "shall, for the purpose of paying the principal and interest of the water works debt and for making improvements, extensions and repairs, levy a general tax, in the manner all other taxes are levied and collected," save that it limits the tax to fifty cents on each $100 valuation.

They all recognize that this provision means what it says and they will govern themselves accordingly.

Heretofore, however, extensions, improvements and interests were paid out of monies collected from rentals. This is the injustice that Hon. Wm. Fleming objected to.

Consumers can at once see what benefits will accrue to them under a correct construction of the law, for it gives them water almost for nothing.

The meeting agreed that it was policy to expend about $5,000 on the reservoir this year and complete it next year. With the reservoir finished, the city will not have to pay out $35,000 for a new pumping engine.

These facts will be reported to the council next Tuesday evening.

The Aveline House to be Leased.

After the extensive improvements, now in progress, are completed, the Aveline house will be leased by Miller & Moritz, its proprietors and owners. They expect to expend considerable money in beautifying the house before renting it.

A Legal Tilt.

The Lagrange *Democrrt* says:

Judges Lowry and Morris had another tilt this week in the Trittipo case. The late Thomas Trittipo, just before his death, deeded to his wife nearly all his property, practically shutting off his children, heirs of his first wife, with nothing. The suit was brought by the heirs to have the conveyances to the step mother set aside. Fraud, undue influence, lack of consideration and unsoundness of mind on the part of the old gentleman were set up as the cause for the complaint.

Lowry & Hanan and McClasky represented the plaintiffs and Morris and Farrall conducted the defense. Before the examination of witnesses for the plaintiff was finished a proffer of compromise was made on behalf of Mrs. Trittipo and was accepted by the other side, whereby the heirs are given the title to nearly two-thirds of the estate.

A DRUNKARD'S WIFE

A Bride of Six Months Commits Suicide Because Her Husband Comes Home Intoxicated.

CARTHAGE, Ill., May 18.—A sensational suicide has come to light at Fountain Green, twelve miles east of Carthage. Mrs. Ida M. Wright, the six months bride of Silas M. Wright, was found hanging in the smoke house last evening, by her husband, who has been absent from home since Monday. A letter written by her was found, in which she bade her husband good-bye. She said she would hang herself because she belived she would be happier dead than alive with a drunkard. Wright had come home intoxicated on one or two occasions and this is supposed to have worked upon his wife's mind and drove her to suicide.

Mr. Ed Garrison writes from Kansas to Mayor Mubler, asking information about Mr. J. H. Bass, the number of men he employs and the wages paid. Mr. Garrison says that out there Mr. Bass' advocacy of President Cleveland is a democratic issue and he wants the facts to check certain republican statements. Mayor Mubler sent them on promptly.

The Young Men's Social club, of the east end, have rented a room over the grocery store of C. J. Jourdan, on Maumee avenue, and are fitting up a cozy club parlor. The membership is limited to twenty-five. The members are all industrious young men, and the object of the club is moral and intellectual improvement. The formal opening of the hall will occur next Thursday evening, with a dance. The object is commendable and the young men have the best wishes of THE SENTINEL.

The case of Williamson against the Pennsylvania company which was on the court calendar of Wayne county has been settled by compromise. This case is much similar to that of W. F. Hinkle, a farmer, who has brought suit against the Evansville and Indianapolis road for $2,000 damages. Hinkle tendered a ticket for his fare recently, dated December 17, 1887. It stated on the face that it was good for only thirty days from its date and the conductor put Mr. Hinkle off the train seven miles from home.

Mr. Ed. Coombs, who with his parents, Mr. and Mrs. J. M. Coombs, is making a tour of Europe, writes his friend, Mr. Dick Thompson, the agent of the Wabash, from Carlsbad, Austria. They have visited Antwerp, Brussels, and a number of the other famous European cities; oozed on "old Heidelberg," "done the Rhine," and expect to visit all the objects of interest in that country before their return. Their trip across the ocean was a safe and pleasant one.

CONGRESSMAN WHITE has not spoken on the Mills bill. This is an important subject to overlook.

GRANT county will get a $200,000 soldiers' home. What is our congressman doing all this while?

WHILE congress is voting in a favorable way towards Indiana, it would be a good time to strike for a monument for the Old Fort.

SENATOR VOORHEES was tendered a magnificent reception by his Washington friends last night. Mr. Ingalls, the imitator, held a soiree at the republican headquarters.

MR. CLEVELAND is stronger before the people to-day than he ever was. The republicans will have to give us something more assuring than a political funeral to make the contest interesting, at least.

THE Northern Indiana Editorial association will hold its next annual convention at Goshen, June 14th and 15th. The *News* of that city says that every effort will be made to make the occasion a pleasant one.

THE Gresham-Harrison factions are engaged in another wrangle at Indianapolis. According to Editor Leonard's telegram, in the *Gazette*, the Harrison men have been playing sharp practices on the Gresham forces. What harmony!

AT A meeting of the democratic state central committee, at Indianapolis, last night, Hon. Charles Jewett, of New Albany, was chosen chairman to succeed the late Gen. John R. Gordon. Mr. Jewett is ex-speaker of the house of representatives and one of the brightest and best men in the state. The honor is well conferred.

REV. T. DEWITT TALMAGE gives as the reason why he indulges so much in metaphore and simile that he naturally thinks in figure of speech. Mr. Talmage is nothing if not imaginative, a quality as rare in the pulpit as in the columns of a philosophical magazine. His latest sermon will be published in THE SENTINEL to-morrow.

MESSRS. Allison, Aldrich, Hiscock, Beck and Harris, of the senate committee on finanee, have been appointed by the chairman of that committee as the sub-committee to make inquiries and take testimony on the questions of tariff and revenue. This is the beginning of the republican plan in the senate to delay and confuse the issue of tariff reform, should it be forced on that body by the passage of the Mills bill in the house.

THE democratic congressional convention of the Tenth Indiana district met at Hammond and nominated Senator Zimmerman, of Rochester, for congress. The attendance was very large, every county in the district being represented. Resolutions indorsing the national and state administrations and reaffirming the resolutions of the state platform were adopted, also one indorsing Senator Voorhees' recent speech in the United States senate and his rebuke of the Kansas statesman.

THE Warsaw *Times* replies to the strictures of the *Gazette* and *News* in its issue last night, and General Williams pays his respects to the local republican organs in a manner calculated to provoke a duel, if such a thing were possible. The *Times* is on the verge of reading the *Gazette* and *News* out of the republican party. It says: "These two journals may attempt to pass off some cheap fun; may perpetrate some silly joke, but at the same time they are only consorting with the leading democratic journals of the country which, in the interest of Cleveland's vote in Indiana, prefer the nomination by the republicans of Gresham, rather than that of Harrison."

THE ODD FELLOWS.

The Doings of the Grand Lodge at Indianapolis.

The Grand Lodge, I. O. O. F., of Indian yesterday afternoon entertained a proposition from the Odd Fellows' Aid and Protective association of America, an insurance company conducted on the assessment plan, having headquarters at Kokomo, to be taken under the protecting wing of the Grand Lodge, with a view to becoming, as it were, the insurance department of Odd Fellowship, or at least having the indorsement of the Grand Lodge. The association is represented to be a strong one, and the proposition has many friends. The discussion over the matter was spirited, and the lodge was unable to reach a vote.

The question will come up again before adjournment. When the memorial hour arrived Capt. W. R. Myers, U. Z. Wiley, of Fowler, and W. Y. Monroe (through J. W. McQuiddy) delivered eulogies in memory of Thomas Underwood. The unwritten work exemplified by Grand Instructor McQuiddy, assisted by J. B. Kenner, G. P. Rep. In the afternoon the Indianapolis lodges escorted the Grand lodge to the new hall on Virginia avenue and the building was formally dedicated. The grand officers have been nominated.

The Grand Lodge does not elect until the November meeting, but the nominations yesterday are in part equivalent to election, as only one person in several instances was placed in nomination for a given office: For grand master, J. E. C. F. Harper, of Madison; for deputy grand master, C. C. Binkley, Richmond; for representative to the Sovereign Lodge of America, L. T. Michener, Indianapolis. The board of trustees was nominated, and twenty or thirty gentlemen were placed in nomination for the office of grand Warden.

A Card from Mr. O'Rourke.

To the People.

MR. EDITOR—Some brilliant, political aspirant has sent out a circular purporting to give my statement to the state board of equalization in 1886. His circular is signed "The Record," the author not putting his name to it.

I do not propose to deny the statement therein made, as I do not recollect what was said on that occasion. Of one thing the people may be fully convinced viz: that I was then looking after the interests of the Grand Rapids and Indiana railroad company, and as an honest man I tried to do my full duty towards it, just as faithfully as I would look after the interests of the people, if they should trust me with their affairs.

No one but a shallow demagogue would send out such a circular for the purpose of trying to injure me, unless he thinks the people are simple, but he will find that they are not.

The people have known me for many years, and they also know that if I have faithfully and honestly tried to do my duty for my employers, that it is the best evidence possible that if the people should employ me, that I would do the same for them.

I would much prefer that the sneaking demagogue, who sent out the circular would charge me with having done what I could honestly for the company, than to say that I played the hypocrite, as he has done, and deceived my employers, as such evidence would tend to the opinion that I would also, if I had the chance, deceive the people.

P. S. O'ROURKE.

Secretary—E. B. Grosvenor, Richmond.

INDIANA METHODIST DELEGATES.

How They Voted on the Question of Admitting Women Delegates to the General Conference.

As there is a good deal of curiosity to know how the Indiana delegates to the Methodist Episcopal general conference voted on the subject of admitting women as delegates to that body, the information is furnished as follows:

THOSE VOTING IN FAVOR WERE:

Ministers—C. G. Hudson, F. T. Simpson, E. G. Holdstock and C. W. Lynch, of the North Indiana conference.

Laymen—Hon. David E. Beem, M. L. B. Sefrit, of the Indiana conference; J. S. Baker and C. L. Henry, of the North Indiana conference; Prof. J. C. Ridpath, of the Northwest Indiana conference; Hon. Eli F. Ritter and ex-Gov. Will Cumback, of the Southeast Indiana conference. Total, 11.

Those voting against were:

Ministers—Dr. A. Martin, H. J. Talbott, W. B. Halstead, of the Indiana conference; S. P. Colvin, R. D. Utter, W. H. Hickman, of the Northwest Indiana conference; J. S. Tevis, W. R. Lathrop, of the Southeast Indiana conference.

Laymen—A. R. Colburn, of the Northwest Indiana conference. Total, 9.

The vote was taken on the eligibility of women delegates as members of the general conference under the present constitution and law of the church.

Robert McWade To-Night.

Robert McWade, who years ago made a decided hit in his dramatization of Washington Irving's story, "Rip Van Winkle," appears at the Temple opera house to-night. In many particulars Mr. McWade's idea of the part differs from that of Jos. Jefferson, who presents Dion Boucicault's of the same familiar story.

Abundant in pathos, full of incidents, the play has lost no popular features in its many years before the public. As the familiar *Rip Van Winkle* Mr. McWade can not be excelled. He mingles the characteristic good nature and native wit with his overpowering remorse most artistically. There is quite a sale of seats for to night's performance.

A Great Battle

Is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. A good reliable medicine like Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore peace and bodily health for many years. Try this peculiar medicine.

HARDLY a man, whatever his circumstances and situation, but if you get his confidence, will you tell that he is not happy. It is however certain that all men are not unhappy in the same degree. Is not this to be accounted for by supposing that all men measure the limited happiness they possess by the happiness they desire or think they deserve?—*Goethe.*

There is no danger to human life more to be dreaded than that which arises from vitiated blood. Dyspepsia, rheumatism, headache, and general debility, all result from it, and are cured by the use of Ayer's Sarsaparilla. Take it this month. Six bottles, $5.

A NEW DEPARTURE.

BY CAPT. ROBERT H. HARRISON.

My faith in party is found out
Since I have left the clan,
A hot republican I have been,
But now with Cleveland I stand.

No more will I march and toe the mark
With the gallant high tariff crew,
But take a back seat when democrats meet
And go in for reform, tis true.

A House Cleaning Soliloquy.

By O. L. Perry.

Tell me, ye winged winds that round my bicycle roar, do ye not know some quiet spot where wives clean house no more; some lone, sequestered, leafy dale, some island girt, where life is not one ceaseless war with cobwebs and with dirt; where only nature's carpet spreads beneath their tired feet, and wretched men are ne'er compelled its emerald folds to beat? The light breeze fanned my heated face and said: "Beat on, there's no such place."

SOME DOCTORS

honestly admit that they can't cure Rheumatism and Neuralgia. Others say they can but—don't. Ath-lo-pho-ros says nothing but—*cures*. That's the secret of its success. Years of trial have *proved* it to be a *quick, safe, sure* cure.

Concord, N. H., Sept. 3, 1887.
In my own family Athlophoros was used as a last resort, the user having suffered from rheumatism for years and having been treated for the disease by different physicians in this State and Massachusetts without even temporary relief. Upon my recommendation scores of people have used this remedy with the same results claimed for it. C. H. WILSON.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Baine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, **Stomach and Bowel Complaints** are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

HOWLING DERVISHES.

A Frenzied Baby of Three Years Takes Part in Their Ceremonies.

To-day we set out to witness some of the religious rites of the Refaee, or the howling dervish, says a Constantinople letter to the San Francisco *Chronicle:*

Around three sides of the low room were galleries, some closely latticed and occupied by Turkish women, others open and filled with curious spectators like ourselves. On the main floor were spread many rugs of Angora goatskin, on which were seated old men, regular patriarchs in appearance, while two groups of little children were ranged behind them. Seated close to the low railing were rows of men clothed in the flowing dervish mantle and tan-colored "galuph" — a tall, brimless felt hat, strongly resembling an inverted flower-pot, bound round the head by a long black scarf with ends left flowing. These ends were at intervals in the course of the service tenderly pressed to the lips. At other times the eyes were carefully wiped with these mourning badges.

Conspicuous before the high priest stood a lithe figure with a pale, cadaverous countenance, but a keen, penetrating eye, who was slowly manipulating a long, white scarf. He first threw it around his shoulders, thus symbolizing the all-embracing love of Allah; then binding it tightly about his waist he began tying and untying it, each knot having a particular significance. His whispered words will bear this interpretation: "I tie up greed; I untie charity. I tie up hate; I untie love. I tie up pride; I untie humility." And so on through a long list. Then began a monotonous chant that soon swelled to a tremendous howl. All rose to their feet and kept time with swaying body and jerking head in a frantic manner. The old and feeble among them gradually dropped out of the circle and took seats on rugs near the center of the room, beside the rows of standing children. At length the eyes of the spectators became riveted on the face and figure of a little three-year-old baby, which stood for two long hours swaying its frail body in perfect unison with the dervishes and with its rosy cherub mouth uttering the same indescribably impressive cry of Allah! When the rude throng had at length worked themselves up to a state of religious frenzy, the little boy also rolled his bright eyes about as if beholding a heavenly vision. I can compare this worship to nothing I have ever witnessed, unless it be the intense excitement exhibited at meetings among the "colored brethren" on a southern plantation in the "old slave times" in our own country. One who has seen those impressionable people shouting, jumping, and falling down with "the power" can imagine something of the harrowing spectacle before us to-day.

To my mind nothing was so impressive as the power of endurance shown by the infants on exhibition. I shudder when I think of the torture they must have been subjected to in the private drill necessary to prepare them for such a performance in public. Some of the children seemed free to pass out and in at will, but the tiny boy spoken of above and a little girl (a hunchback) never left their posts a minute, nor ceased to sway their bodies and shout until the performance was concluded, by a louder clapping and howling, more violent jerking of the head, and wilder tumult than before. Then a sudden hush, when, without a signal or nod from anyone, this lovely little baby demurely marched up to the high priest to receive his blessing, then laid him down, his face to the ground, before the venerable man. Another, who appeared to be a high priest of the order, now took the stalwart priest by the hand while he placed both feet on the body of this frail infant and stood with his face turned upward, while he muttered what appeared to be a prayer. Then other children followed. First came the little hunchback, then three or four at a time, finally ten or twelve laid down, forming a human "corduroy road" for the high priest to walk over, until at least twenty children had thus received his blessing and had the evil spirit driven out of them. The ceremony is supposed to be a panacea, and there are always numbers of invalids brought to the Take during services to be cured of some real or imaginary ill. One aged man laid down to be walked upon to-day, and one little boy, who was brought in by his devout and devoted father, refused utterly to be comforted in this manner, and was carried out most boisterously victorious.

Paste Diamonds.

"The great majority of people cannot tell the difference between paste and real diamonds in a ballroom," said a well-known jeweler to a New York *Telegram* reporter, "and there are more people who wear paste than one would think. Once I was the assistant of a fashionable jeweler in Washington. It was then a common thing to loan out paste to ladies who had not security to give for real diamonds."

"What do you charge for those paste outfits?" the reporter asked.

"Generally about $25. Once a pretty girl from one of the Western States hired one of these paste sets from us for a ball and captured the heart of a wealthy French Count—not one of the shady kind, but a real Count, rich as a Crœsus, who was on a visit to this country, and after a short courtship they were engaged to be married.

"He obtained for her an invitation to the next, official reception, for which we lent her real diamonds and sent our detective to watch them.

"When she came back with them she said: 'O, I wish you had given me real diamonds like you did the first time. These last were paste and any one could see by their dullness that they were not diamonds at all.'

"I didn't say anything, but shortly after when she obtained the loan of an outfit we gave her the paste set and she came back highly pleased with the change.

"In a few days she had no need to hire diamonds. Her lover bought her plenty of them."

Curious Freaks of Lightning.

Much interest has been manifested upon the subject of fireballs, of globular lightning, since mention was made in the Atlanta *Constitution* of a large specimen having been seen here during a recent storm. It appears that they are much more common than is generally supposed, a number of instances having been cited where they appeared recently in this city. A young man sitting at a table saw one suddenly make its appearance, poised directly over the table. During a thunderstorm here recently a horse was struck by lightning, and two men who were near it were felled to the floor of the stable where they were. In the dwelling-house upon the same lot the persons in each of the rooms saw a ball of fire. A negro laborer known as Davy, upon Mr. J. M. Tift's sand-hill plantation affirms that while the storm was raging, and when the lightning was playing havoc with the cabin on that place, a ball of fire suddenly appeared directly before him. It burned off his eyebrows and he had to brush it from before his face. While globular lightning may be more common than is generally supposed, it remains for a gentleman connected with the *News and Advertiser* to have seen a still more singular sight. It was nothing more or less than phosphorescent fire, or will-o'-the-wisp, which emerging from the banks of the Flint river, during the recent overflow, in the shape of a ball of fire, arose above the tree tops. This ghastly fire-ball made its appearance just as the corpse of the unknown man was seen drifting down the swollen current of the river—his face, calm after the agony of death, upturned to the pitiless sky.

"Lightning shows some queer freaks," said an old citizen. "Many years ago in a then new town near Apalachicola, Fla., a gentleman stepped into the office of the tavern, which had a bar on one side and was a combined bar-room and office. A streak of lightning came down the chimney, shattered the large mirror over the mantlepiece, and fired the pieces of glass across the room. One of them struck the gentleman in the neck, cutting his jugular vein. He died before help could reach him. A man who was sitting in a chair leaning back against the mantelpiece had a narrow escape. The lighting passed down his side and came out at his boots doing no injury. He had imbibed freely of whisky and was in an intoxicated condition. Back of the bar the decanters and their different colored liquids were tastefully arranged. The lightning struck and shattered every bottle of brandy; the whisky was untouched. The inhabitants of that town confined themselves to whisky after that occurrence."

Sachet-Bags for Ladies.

It is a new fad with Washington girls to wear many little sachet-bags fastened to ribbons of various colors hanging from their throats. The bags are not much larger than an ordinary thimble and suspended by narrow ribbons, cut at different lengths and bowed with many loose ends just under the chin. They are made to represent meal sacks and look like camphor-bags designed to keep off the measles and other diseases, by some supposed to fear that fragrant drug. They do not, however, contain camphor. It is proper that they should be made from bits of silk or satin taken from young men's ties. Each bag is supposed to represent one admirer, and, like scalps, numbers count to build up the pride of the wearer. They are stuffed with cotton and it is considered nice to have them each scented with the peculiar perfume which is most favored by the young man from whose tie it is made. Young men, often from economical motives, send scraps of old ties to be used for this purpose, but it is much more a matter of satisfaction for the young lady to know that her influence is so great that she can cut the silken ends from his neck without protest.—*Philadelphia Telegraph.*

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

IN 888 the Church of England leased to the crown a piece of land for 999 years, or on what is termed a "perpetual lease." The time has expired, and now the property reverts to the church. Here is a document in force, made away back in the days of King Alfred, compassing a millennium, less one year, and now, after this long period, the occupants must vacate. How strangely this event links the present with the past, and what a proof of the majesty of the law and the stability of the English Government.

GOL. CHARLES LONG is one of the most varied men of the day. He has made a reputation in all parts of the world and in pretty much all countries of the world. At 24 he was a Colonel in the Northern army. Somewhat later he was naval commander in the Egyptian service, and his good qualities made him a favorite with the Khedive. From that high estate he evoluted to a Consulship, and then became clerk in a New York court. During the bombardment of Alexandria and the exciting incidents connected therewith he was in that city as Consul, and by his bravery and intelligence spared much life and suffering. He then became an advocate in Paris, and shortly after a club man in New York. He is about 49 years of age

THE late Emperor William one evening at Baden Baden noticed an officer in civilian dress trying his luck at trente-et-quarante, a pastime forbidden to army officers. He had placed two or three louis on the table and had won a nice little sum, when he saw the King opposite. He turned pale, trembled, and hesitated to take possession of his money. Thereupon King William approached and whispered in his ear: "Don't be afraid. Take in your money, but don't do it again."

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Baine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, **Stomach and Bowel Complaints** are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

HOWLING DERVISHES.

A Frenzied Baby of Three Years Takes Part in Their Ceremonies.

To-day we set out to witness some of the religious rites of the Refaee, or the howling dervish, says a Constantinople letter to the San Francisco *Chronicle:*

Around three sides of the low room were galleries, some closely latticed and occupied by Turkish women, others open and filled with curious spectators like ourselves. On the main floor were spread many rugs of Angora goatskin, on which were seated old men, regular patriarchs in appearance, while two groups of little children were ranged behind them. Seated close to the low railing were rows of men clothed in the flowing dervish mantle and tan-colored "galuph" — a tall, brimless felt hat, strongly resembling an inverted flower-pot, bound round the head by a long black scarf with ends left flowing. These ends were at intervals in the course of the service tenderly pressed to the lips. At other times the eyes were carefully wiped with these mourning badges.

Conspicuous before the high priest stood a lithe figure with a pale, cadaverous countenance, but a keen, penetrating eye, who was slowly manipulating a long, white scarf. He first threw it around his shoulders, thus symbolizing the all-embracing love of Allah; then binding it tightly about his waist he began tying and untying it, each knot having a particular significance. His whispered words will bear this interpretation: "I tie up greed; I untie charity. I tie up hate; I untie love. I tie up pride; I untie humility." And so on through a long list. Then began a monotonous chant that soon swelled to a tremendous howl. All rose to their feet and kept time with swaying body and jerking head in a frantic manner. The old and feeble among them gradually dropped out of the circle and took seats on rugs near the center of the room, beside the rows of standing children. At length the eyes of the spectators became riveted on the face and figure of a little three-year-old baby, which stood for two long hours swaying its frail body in perfect unison with the dervishes and with its rosy cherub mouth uttering the same indescribably impressive cry of Allah! When the rude throng had at length worked themselves up to a state of religious frenzy, the little boy also rolled his bright eyes about as if beholding a heavenly vision. I can compare this worship to nothing I have ever witnessed, unless it be the intense excitement exhibited at meetings among the "colored brethren" on a southern plantation in the "old slave times" in our own country. One who has seen those impressionable people shouting, jumping, and falling down with "the power" can imagine something of the harrowing spectacle before us to-day.

Some of the children seemed free to pass out and in at will, but the tiny boy spoken of above and a little girl (a hunchback) never left their posts a minute, nor ceased to sway their bodies and shout until the performance was concluded, by a louder clapping and howling, more violent jerking of the head, and wilder tumult than before. Then a sudden hush, when, without a signal or nod from anyone, this lovely little baby demurely marched up to the high priest to receive his blessing, then laid him down, his face to the ground, before the venerable man. Another, who appeared to be a high priest of the order, now took the stalwart priest by the hand while he placed both feet on the body of this frail infant and stood with his face turned upward, while he muttered what appeared to be a prayer. Then other children followed. First came the little hunchback, then three or four at a time, finally ten or twelve laid down, forming a human "corduroy road" for the high priest to walk over, until at least twenty children had thus received his blessing and had the evil spirit driven out of them. While globular lightning may be more common than is generally supposed, it remains for a gentleman connected with the *News and Advertiser* to have seen a still more singular sight. It was nothing more or less than phosphorescent fire, or will-o'-the-wisp, which emerging from the banks of the Flint river, during the recent overflow, in the shape of a ball of fire, arose above the tree tops. This ghastly fire-ball made its appearance just as the corpse of the unknown man was seen drifting down the swollen current of the river—his face, calm after the agony of death, upturned to the pitiless sky.

"Lightning shows some queer freaks," said an old citizen. "Many years ago in a then new town near Apalachicola, Fla., a gentleman stepped into the office of the tavern, which had a bar on one side and was a combined bar-room and office. A streak of lightning came down the chimney, shattered the large mirror over the mantlepiece, and fired the pieces of glass across the room. One of them struck the gentleman in the neck, cutting his jugular vein. He died before help could reach him. A man who was sitting in a chair leaning back against the mantelpiece had a narrow escape. The lighting passed down his side and came out at his boots doing no injury. He had imbibed freely of whisky and was in an intoxicated condition. Back of the bar the decanters and their different colored liquids were tastefully arranged. The lightning struck and shattered every bottle of brandy; the whisky was untouched. The inhabitants of that town confined themselves to whisky after that occurrence."

Sachet-Bags for Ladies.

It is a new fad with Washington girls to wear many little sachet-bags fastened to ribbons of various colors hanging from their throats. The bags are not much larger than an ordinary thimble and suspended by narrow ribbons, cut at different lengths and bowed with many loose ends just under the chin. They are made to represent meal sacks and look like camphor-bags designed to keep off the measles and other diseases, by some supposed to fear that fragrant drug. They do not, however, contain camphor. It is proper that they should be made from bits of silk or satin taken from young men's ties. Each bag is supposed to represent one admirer, and, like scalps, numbers count to build up the pride of the wearer. They are stuffed with cotton and it is considered nice to have them each scented with the peculiar perfume which is most favored by the young man from whose tie it is made. Young men, often from economical motives, send scraps of old ties to be used for this purpose, but it is much more a matter of satisfaction for the young lady to know that her influence is so great that she can cut the silken ends from his neck without protest.—*Philadelphia Telegraph.*

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

In 888 the Church of England leased to the crown a piece of land for 999 years, or on what is termed a "perpetual lease." The time has expired, and now the property reverts to the church. Here is a document in force, made away back in the days of King Alfred, compassing a millennium, less one year, and now, after this long period, the occupants must vacate. How strangely this event links the present with the past, and what a proof of the majesty of the law and the stability of the English Government.

MUSTANG LINIMENT

MEXICAN MUSTANG LINIMENT, used vigorously is death to Swinney, Wind Galls, Sore Backs.

Col. Charles Long

is one of the most varied men of the day. He has made a reputation in all parts of the world and in pretty much all countries of the world. At 24 he was a Colonel in the Northern army. Somewhat later he was naval commander in the Egyptian service, and his good qualities made him a favorite with the Khedive. From that high estate he evoluted to a Consulship, and then became clerk in a New York court. During the bombardment of Alexandria and the exciting incidents connected therewith he was in that city as Consul, and by his bravery and intelligence spared much life and suffering. He then became an advocate in Paris, and shortly after a club man in New York. He is about 49 years of age.

The late Emperor William one evening at Baden Baden noticed an officer in civilian dress trying his luck at trente-et-quarante, a pastime forbidden to army officers. He had placed two or three louis on the table and had won a nice little sum, when he saw the King opposite. He turned pale, trembled, and hesitated to take possession of his money. Thereupon King William approached and whispered in his ear: "Don't be afraid. Take in your money, but don't do it again."

The Wabash has in its shops at Toledo twelve coaches all fitted up with vestibule attachment and all ready to go out, but the recent decision in favor of the Pullman company rather gives the contemplated train a set back. ECHOES OF THE RAIL.

It Was a Rainy Day, but Our Reporter Made His Rounds and Gathered a Big News Budget.

John Backes, of the Pittsburg boiler shops, is on the sick list.

Engineer Wough, of the Pittsburg, is recovering from his illness.

A number of the clerks in the railroad offices of this city are expert bicyclists.

The electric light works have made several shipments of arc lights this week.

Charles Gumpper will succeed C. H Kendrick as supply agent on the Nickel Plate.

The Pittsburg pay car was still in the city this morning, but left for the west at noon.

The employes of the Nickel Plate railroad in this city received their month's pay today.

F. M. Cherry, of the Pittsburg boiler shops, was taken sick this morning and was compelled to quit work.

Engineer Kleber has returned from Lima, where he has been running a switch engine for several weeks.

Harry Monks, traveling freight agent of the Canada Southern, was in the city yesterday. His headquarters are at Detroit.

John McCarty, a fireman on the Nickel Plate, will cast his first vote next fall. He passed his majority last Wednesday.

Mr. George H. Judy, the foreman of the Pittsburg blacksmith shops, went to Chicago this morning on business for the company.

Mr. J. Deeters, formerly an engineer on the Pittsburg in this city, but now living at Harrisburg, Pa., is visiting friends here.

The steam hammer in the blacksmith shops of the Bass works has been repaired. This department of the works is kept very busy.

It is thought that Mr. O. B. Sears, the Pittsburg brakeman who was injured lately, cannot recover. He is in a hospital at Valparaiso.

The excursion business will soon be in full blast and this summer will probably see more of them than we have probably had before. Several are already announced for near dates.

A new engine was turned out of the Pittsburg shops this week and during its trial trip broke a piston rod. It was returned for repairs and left the shops again to-day in good order.

A big train load of emigrants passed through the city yesterday on the Pittsburg road and Orin Ross, the assistant ticket agent, made love to one of the pretty frauliens as they were waiting at the depot.

Fred Fisher, machinist at the Organ factory, was at the Bass works this morning looking after some work which his firm is having done there. He tells our reporter that the Organ factory are now turning out about sixty organs a week.

The Pittsburg shops are still engaged in building new locomotive engines, although the order given at the first of the year has been greatly reduced. The work in progress is on five new engines, which are to be built during the next seven months.

Christian Eberwein, one of the veteran machinists in the Bass works, is lying very low at his home on Walton avenue, with dropsy of the heart. His condition was very serious last evening and it was thought he could not live long. Mr. Eberwein has been in the employ of the Bass works for over eighteen years and has a host of friends who wish for his restoration to health.

J. C. Kensill, in addition to his many other accomplishments, is one of the best posted men in the Pittsburg shops in ancient and modern history, so the boys say, and they ought to know. Jack admits, however, that he was not at the building of King Solomon's temple or with Noah in the ark, but Robert Harrison seems inclined to doubt this and insists that he saw him at both these places.

Pay day is here, so is L. O. Hull with a line of gold wall paper at 9 cents a roll; same paper sells at other stores at 10 to 25 cents a roll. Now is the time to get a bargain. 17-3t

As has frequently been hinted in this paper, no insects are to be found upon the lines of men's and ladies' fine $2 shoes at the Hoosier Shoe Store.

THE JENNEY LIGHT.

The Term "Sugar" Creates a Stir at the Capital—A Nice Contrast Down There.

The Indianapolis *News*, of last evening says:

The publication of a telegram intended for J. P. Smith, but which fell into the hands of Alderman Smith, by the *News* yesterday, wherein was the sentence, "sugar, if necessary," created a stir in electric light circles, and the competitors of the Fort Wayne company are making the most of the situation. Mr. J. P. Smith indignantly repudiates the idea that Mr. McDonald, the sender of the telegram, contemplated bribery of the council or aldermanic board, and says it was in response to a phrase used by himself, in which he wrote to McDonald, telling him of the sharp rivalry, and suggesting that it would be a good idea to take the representatives of the city on a trip to Fort Wayne and other points, where they could see the practical workings of the plant. He also told McDonald that to furnish transportation and entertainment would require considerable "sugar," meaning thereby money, and that in reply, the same expression was adopted. Nothing but a legitimate expenditure of money was contemplated, either by himself or the company.

The Indianapolis *Sentinel* and *Journal* do not take kindly to the "sugar" phrase and editorially advise the council to avoid the Fort Wayne company, even in the face of its plausible explanation.

The Indianapolis Cyclorama company yesterday closed contracts with the Atlas engine works for one of their largest engines and boilers and with the Fort Wayne Jenney Electric Light company for a system of thirty arc lights. Three will shine out from the flag staff above the building, while the rest will illuminate the panorama. Steam heat will be furnished by the same plant, which, complete, will cost about $4,000.

So the Jenney spark will shine at Indianapolis, just the same.

FREEMAN WILD.

A Pleasant Wedding at the Freeman Homestead Last Evening.

The pleasant Freeman homestead, on Spy Run avenue, was the scene of a brilliant wedding last evening.

The occasion was the marriage of Fredric Leslie Wild to Miss Marie Freeman, one of Fort Wayne's most accomplished society ladies.

At 6 o'clock Mr. Freeman and Mr. Wild, brothers of the bride and groom, led the wedding party into the parlor. Here, midst most charming surrounding, Rev. Mr. Wagenhals, of the Trinity Luthuran church, pronounced the ceremony sacred.

A reception followed and the guests, some seventy-five in all, paid their compliments to Mr. and Mrs. Wild.

Reinecke's orchestra discoured music and an elegant feast was served by Sidel.

Mr. and Mrs. Wild left on the night train for Orange, N. J., their future home.

They were the recipients of very many rich and costly gifts from their relatives and friends.

A MOTHER'S FUND.

Every Mother in Fort Wayne Will Be Asked to Give Her Mite.

A most enthusiastic meeting of the ladies of the city was held in the parlors of the new Y. M. C. A. yesterday afternoon, at which time a ladies' auxiliary was organized. The officers are as follows: Mrs. John W. Hayden, president; Mrs. L. D. Keil, vice-president; Mrs. R. M. Hays, secretary, and Mrs. E. H. McDonald, treasurer. After the organization the first thing in the order of business was to know the true financial condition of the association and upon the learning that there were a number of bills to be paid they determined to raise a fund known as the "Mother's Fund," and that it should be $1,000, and to that end apportioned the city in districts and a systematic canvass will be at once began and the success is assured we know. There is not a mother in the city but will be glad to join in this grand work inaugurated by the mothers for their sons. One lady has said, "If the people could just see this building they would not have to ask for aid," and it's true. Such a house any city could well afford to be proud of and we know our citizens are pleased with the building reared by their generosity.

Mr. Edgerton's Hicksville Stables Burned.

Last Saturday night fire was discovered in the stables of United States civil service commissioner, Hon. A. P. Edgerton, of this city, at Hicksville, O. So great were the flames that for a time it looked as if the whole city would be enveloped in the fire, but fortunately for the town nothing but the three barns of Mr. Edgerton and their contents were destroyed.

ANTI-MAHONE!

The Republican Opponents of Mahone Hold a Convention and Elect Delegates to the Chicago Convention.

PETERSBURG, Va., May 18.—At the republican state convention yesterday two sets of committeemen were reported from the Seventh district. After much confusion the question was laid aside temporarily and the convention took another recess till 9 p. m. After the convention re-assembled two delegations were reported from the Richmond district.

Ex Congressman John D. Wise got the floor and made a hot speech. He proposes to go to Chicago with his complaint and appeal to the national convention. In conclusion he called on those who were opposed to the unit rule to follow him out of the hall. He then retired, and perhaps fifty voters went with him.

PETERSBURG, Va., May 18—The Anti-Mahone meeting remained in session till early this morning. The committee to prepare business reported and the report was adopted. It provides for a committee of twenty five to issue an address to the republicans of the state and submit plans of organization. Senator D. F. Houston, of Roanoke, was elected chairman of this section of the party. The convention then proceeded to elect delegates-at-large to the Chicago convention as follows: Gen. V. D. Groner, Norfolk; Samuel M. Yost, Augusta; R. A. Pani (colored), Richmond, and C. A. Herman, Montgomery.

Ex-Governor William E. Cameron and ex-United States Senator John F. Lomas were nominated electors at large.

On motion of Hon. John S. Wise the platform to be agreed on at the Chicago convention was adopted as the platform of the party here.

At 2:30 a. m. the convention adjourned with three rousing cheers for Blaine.

CHURCH CONVENTIONS.

The General Conference of the M. E. Church at New York City.

NEW YORK, May 18.—At the general conference to-day Bishop Hurst presided. The committee on missions reported favorably on the appointment of Deacon Esser. Dr. Quaell offered as an amendment that the conference board shall make a report yearly to the annual conference upon the names of all persons appointed and the work done, and that the continuance of the office of all appointees shall depend upon the action of the conference. The amendment was carried and the report adopted. The report of the commission on lay and ministerial delegates favored equal representation. This would make the number of lay delegates 113.

THE WESTERN FLOODS

Show no Signs of Abatement and Further Rises are Expected.

SPRINGFIELD, Mo., May 18.—From Fayetteville, Ark., comes the report that it has rained incessantly for thirty-six hours, and White River, usually a peaceful stream, is now a rushing torrent, five miles wide. Severe lightning also prevailed in one or two instances, doing damage to property. A washout is reported on the 'Frisco railroad, near Winslow, 150 miles south of this city.

QUINCY, Ill., May 18—The flood in this district gives no signs of abatement. The decline of an inch and a half up to 6 o'clock this morning was due solely to the relief afforded by the numerous breaks in the two levees, which permitted the vast lakes of water to overflow the basin. Since that the river has been on a stand and a further rise is certain.

Charles L. Jewett Chairman.

INDIANAPOLIS, May 18.—The democratic state central committee met yesterday afternoon for the purpose of electing a chairman to succeed Hon. John E. Gordon, deceased. Charles L. Jewett, of New Albany, was selected, with Hon. Si Sheerin as vice-chairman. No secretary of the executive committee was selected, the secretaryship being left in the hands of the chairman. A committee was appointed, consisting of ex-Chairman Richardson, P. H. McCormick and John A. Holman, to draft resolutions of respect and sympathy concerning the death of Mr. Gordon. Several of the candidates on the state ticket were present.

The Myers Contempt Case.

COLUMBUS, Ohio, May 18.—A motion for leave to file a petition in error to the lower court in the case of Allen O. Myers, sentenced to serve three months in the county jail for alleged contempt of court, was argued in the supreme court yesterday, and a decision is expected on Tuesday. The names to compose the jury in the tally-sheet forgery case in which Myers is defendant, and set for hearing May 23, were drawn yesterday. The extra names will be stricken from the list Monday.

David Farquahr and Mrs. Chas. Cook, who eloped some time ago, are believed to be at Omaha, Neb. Mr. Cook has written for their arrest.

THE TARIFF BILL.

Occupies the Attention of the House and Mr. Randall Had the Floor, This Morning.

WASHINGTON, May 18.—In Randall's speech on the tariff bill, he said: "The remedy he proposed was through the repeal of the internal revenue tax, as well as by a tariff, as promised to the people by the democratic convention of 1884. The reduction provided for by his bill aggregated $77,000,000 on the internal taxes. Those taxes had always been last to be levied and first to be repealed, when no longer necessary.

He pleaded with his democratic friends to not undo the good that has been done to the manufacturing industries by the protective tariff and read from Jefferson, Monroe and other democratic forefathers to prove that protection was a fundamental democratic principle.

He closed with a tribute to the results and principles of protection, and asked that they be maintained, and maintained through the efforts of the party that instituted them.

Messrs. Foran, of Ohio; Wise, (dem.) of Virginia, and Kelly, (rep.) of Pennsylvania, were the first to extend congratulations to Mr. Randall at the conclusion of his speech.

The house was thrown into an uproar at the conclusion of Randall's hour. A request was made that Randall be allowed to proceed, but an objection was made by Mills, an objection which was greeted by jeers and hisses by the republicans. Mr. McKinley then yielded him a portion of his time, but by an amicable arrangement suggested by Breckenridge, of Kentucky, Randall was permitted to proceed without limitation of time. Mr. Randall concluded at 12:35 and was followed by McKinley, of Ohio.

Mr. McKinley completed, at 2:40, what was considered by many as the best protectionist speech of the debate and he was enthusiastically applauded and congratulated by his party colleagues. He was followed by Breckenridge, of Kentucky.

A GIRL OUTRAGED.

Wm. Graham, a Brutal Chimney Sweep, Assaults a Daughter of Geo. Varner.

This morning a diabolical crime came to the knowledge of the police.

Wm. Graham, a chimney sweep, who has a wife and family at Bluffton, has been stopping at the home of George Varner, at 161 East Washington street. Graham and Mr. Varner are old friends, and when in the city the former has enjoyed every hospitality at Mr. Varner's home.

This morning Mr. Varner, who is employed by Contractor Joe Derheimer, left his home as usual to perform his daily task. Mrs. Varner is equally as industrious and after doing light work at her own home, went to the residence of County Commissioner Brannan to assist in some household work.

Her little daughter, ten years old, was left at home alone with Graham. Some time during the morning the brutal fellow dragged the child into his room and there assaulted and outraged her.

Mrs. Varner had a premonition all morning that something was wrong. It so seized her mind that she had to leave Mr Brannan's house and hurried home. Her worst suspicions were realized, for the little girl related her awful experience. The villian Graham was still in the house, but seeing the mother he fled.

He went direct to where Mr. Varner was at work and sought his forgiveness. The infuriated father started to kill the man; but he fled in a southwesterly direction, closely pursued by the police and a sheriff's posse, who were notified.

It is supposed the man is en route to Bluffton, but telegrams are there to greet him. No punishment is too severe for this fiend in human form.

After Pinkerton Men.

OMAHA, Neb., May 18.—Considerable excitement still prevails at Plattsmouth over the wounding, Wednesday night, of Peter Rogers and John Dill, Brotherhood firemen, and Special Officer Kane, by a Pinkerton man, named Goodwin, employed by the Burlington and Missouri River Co. Goodwin narrowly escaped being mobbed, and the infuriated Brotherhood men and their friends proposed at one time to drive the entire Pinkerton force into the river.

Guilty of Murder.

ST. LOUIS, May 18.—A special from Fort Smith, Ark., says that the grand jury found an indictment to-day of murder in the second degree against E. C. Boudinot, jr., clerk of the Cherokee senate, for killing B. H. Stone, editor of the *Telephone*, Tahlequah, I. T., last winter.

Two Killed.

LOCAL OPTION!

The Supreme Court of Michigan Declare the Local Option Law Unconstitutional.

LANSING, Mich., May 18.—The supreme court has unanimously declared the local option law unconstitutional. The ground upon which this decision is reached is very simple. The law is a violation of article 14, section 20, of the constitution. Although other points are touched upon incidentally the article of the constitution violated provides that no law shall embrace more than one object, which shall be embodied in its title. The local option law is entitled, "An act to regulate the manufacture and sale of liquors," which is not at all what the law is for.

FALSE TEETH!

An Indianapolis Woman is Strangled to Death by Sucking Them Into Her Windpipe.

INDIANAPOLIS, May 18.—Mrs. W. D. Ligon, of Whitesboro, Texas, came to the surgical institute, in this city, a few days ago, to be treated for the morphia habit, and she was placed under the care of an experienced nurse. Yesterday, before she had arisen, the nurse discovered that she was suffering with a paroxysm, and summoned the physicians, but she strangled before anything could be done in relief.

It was then discovered that during the paroxysm a set of lower teeth had been dislodged and had been sucked into her throat, closing the wind-pipe. The lady was aged about forty-five, and comes of a wealthy family. Her remains will be shipped south for burial.

THE WATER WORKS.

The Mayor, Trustees and Councilmen Have a Chat Over the Department Affairs.

Mayor Mubler, the water works trustees and the council committee met last night to talk over the affairs of the department.

The trustees will ask the council to name a committee which, with them, will be impowered to visit cities that get a water supply from wells, with a view of establishing a like system in Fort Wayne. The expenses of the tour are to be paid out of the water works fund, and it is probable that the whole council board will have a longing for the experience.

The question of water rents was also talked over and a reduction is probable. There are two sections of the law under which water works monies are collected, but now, and since the works were established, one section was overlooked, because its existence was not known until six months ago.

The first section says the trustees shall levy only sufficient water rentals on consumers to pay the expense of "managing and operating the works."

The second section, which has never been enforced, says that the trustees, "shall, for the purpose of paying the principal and interest of the water works debt and for making improvements, extensions and repairs, levy a general tax, in the manner all other taxes are levied and collected," save that it limits the tax to fifty cents on each $100 valuation.

They all recognize that this provision means what it says and they will govern themselves accordingly.

Heretofore, however, extensions, improvements and interests were paid out of monies collected from rentals. This is the injustice that Hon. Wm. Fleming objected to.

Consumers can at once see what benefits will accrue to them under a correct construction of the law, for it gives them water almost for nothing.

The meeting agreed that it was policy to expend about $5,000 on the reservoir this year and complete it next year. With the reservoir finished, the city will not have to pay out $35,000 for a new pumping engine.

These facts will be reported to the council next Tuesday evening.

The Aveline House to be Leased.

After the extensive improvements, now in progress, are completed, the Aveline house will be leased by Miller & Moritz, its proprietors and owners. They expect to expend considerable money in beautifying the house before renting it.

A Legal Tilt.

The Lagrange *Democrat* says:

Judges Lowry and Morris had another tilt this week in the Trittipo case. The late Thomas Trittipo, just before his death, deeded to his wife nearly all his property, practically shutting off his children, heirs of his first wife, with nothing. The suit was brought by the heirs to have the conveyances to the step mother set aside. Fraud, undue influence, lack of consideration and unsoundness of mind on the part of the old gentleman were set up as the cause for the complaint.

Lowry & Hanan and McClasky represented the plaintiffs and Morris and Farrall conducted the defense. Before the examination of witnesses for the plaintiff was finished a proffer of compromise was made on behalf of Mrs. Trittipo and was accepted by the other side, whereby the heirs are given the title to nearly two-thirds of the estate.

A DRUNKARD'S WIFE

A Bride of Six Months Commits Suicide Because Her Husband Comes Home Intoxicated.

CARTHAGE, Ill., May 18.—A sensational suicide has come to light at Fountain Green, twelve miles east of Carthage. Mrs. Ida M. Wright, the six months bride of Silas M. Wright, was found hanging in the smoke house last evening, by her husband, who has been absent from home since Monday. A letter written by her was found, in which she bade her husband good-bye. She said she would hang herself because she belived she would be happier dead than alive with a drunkard. Wright had come home intoxicated on one or two occasions and this is supposed to have worked upon his wife's mind and drove her to suicide.

The case of Williamson against the Pennsylvania company which was on the court calendar of Wayne county has been settled by compromise. This case is much similar to that of W. F. Hinkle, a farmer, who has brought suit against the Evansville and Indianapolis road for $2,000 demages. Hinkle tendered a ticket for his fare recently, dated December 17, 1887. It stated on the face that it was good for only thirty days from its date and the conductor put Mr. Hinkle off the train seven miles from home.

MASON & HAMLIN

ORGANS. The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in *$22 TO $900,* the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world.

Mason & Hamlin offer, as demonstration of the unequalled excellence of their organs, the fact that at all the great World's Exhibitions, since that of Paris, 1867, in competition with the best makers of all countries, they have invariably taken the highest honors. Illustrated catalogues free.

PIANOS. Mason & Hamlin do not hesitate to make the extraordinary claim for their pianos, that they are superior to all others. Grand & Upright. They recognize the high excellence achieved by other leading makers in the art of piano building, but still claim superiority. This they attribute solely to the remarkable improvement introduced by them in the year 1882, and now known as the "Mason & Hamlin Piano Stringer," by the use of which is secured the greatest possible purity and refinement of tone, together with greatly increased capacity for standing in tune, and other important advantages.

A circular, containing testimonials from three hundred purchasers, musicians, and tuners, sent together with descriptive catalogue, to any applicant.

Pianos and Organs sold for cash or easy payments; also rented.

GENERAL ROSECRANS is now talked of as a democratic candidate for vice-president.

DEMOCRATIC prospects in Indiana and a few other western states grow brighter every day.

CONGRESSMAN WHITE has not spoken on the Mills bill. This is an important subject to overlook.

GRANT county will get a $200,000 soldiers' home. What is our congressman doing all this while?

WHILE congress is voting in a favorable way towards Indiana, it would be a good time to strike for a monument for the Old Fort.

SENATOR VOORHEES was tendered a magnificent reception by his Washington friends last night. Mr. Ingalls, the imitator, held a soiree at the republican headquarters.

MR. CLEVELAND is stronger before the people to-day than he ever was. The republicans will have to give us something more assuring than a political funeral to make the contest interesting, at least.

THE Northern Indiana Editorial association will hold its next annual convention at Goshen, June 14th and 15th. The *News* of that city says that every effort will be made to make the occasion a pleasant one.

THE Gresham-Harrison factions are engaged in another wrangle at Indianapolis. According to Editor Leonard's telegram, in the *Gazette*, the Harrison men have been playing sharp practices on the Gresham forces. What harmony!

AT a meeting of the democratic state central committee, at Indianapolis, last night, Hon. Charles Jewett, of New Albany, was chosen chairman to succeed the late Gen. John R. Gordon. Mr. Jewett is ex-speaker of the house of representatives and one of the brightest and best men in the state. The honor is well conferred.

REV. T. DEWITT TALMAGE gives as the reason why he indulges so much in metaphore and simile that he naturally thinks in figure of speech. Mr. Talmage is nothing if not imaginative, a quality as rare in the pulpit as in the columns of a philosophical magazine. His latest sermon will be published in THE SENTINEL to-morrow.

MESSRS. Allison, Aldrich, Hiscock, Beck and Harris, of the senate committee on finance, have been appointed by the chairman of that committee as the sub-committee to make inquiries and take testimony on the questions of tariff and revenue. This is the beginning of the republican plan in the senate to delay and confuse the issue of tariff reform, should it be forced on that body by the passage of the Mills bill in the house.

THE democratic congressional convention of the Tenth Indiana district met at Hammond and nominated Senator Zimmerman, of Rochester, for congress. The attendance was very large, every county in the district being represented. Resolutions indorsing the national and state administrations and reaffirming the resolutions of the state platform were adopted, also one indorsing Senator Voorhees' recent speech in the United States senate and his rebuke of the Kansas statesman.

THE Warsaw *Times* replies to the strictures of the *Gazette* and *News* in its issue last night, and General Williams pays his respects to the local republican organs in a manner calculated to provoke a duel, if such a thing were possible. The *Times* is on the verge of reading the *Gazette* and *News* out of the republican party. It says: "These two journals may attempt to pass off some cheap fun; may perpetrate some silly joke, but at the same time they are only consorting with the leading democratic journals of the country which, in the interest of Cleveland's vote in Indiana, prefer the nomination by the republicans of Gresham, rather than that of Harrison."

THE ODD FELLOWS.

The Doings of the Grand Lodge at Indianapolis.

The Grand Lodge, I. O. O. F., of Indian yesterday afternoon entertained a proposition from the Odd Fellows' Aid and Protective association of America, an insurance company conducted on the assessment plan, having headquarters at Kokomo, to be taken under the protecting wing of the Grand Lodge, with a view to becoming, as it were, the insurance department of Odd Fellowship, or at least having the indorsement of the Grand Lodge. The association is represented to be a strong one, and the proposition has many friends. The discussion over the matter was spirited, and the lodge was unable to reach a vote.

The question will come up again before adjournment. When the memorial hour arrived Capt. W. R. Myers, U. Z. Wiley, of Fowler, and W. Y. Monroe (through J. W. McQuiddy) delivered eulogies in memory of Thomas Underwood. The unwritten work exemplified by Grand Instructor McQuiddy, assisted by J. B. Kenner, G. P. Rep. In the afternoon the Indianapolis lodges escorted the Grand lodge to the new hall on Virginia avenue and the building was formally dedicated. The grand officers have been nominated.

The Grand Lodge does not elect until the November meeting, but the nominations yesterday are in part equivalent to election, as only one person in several instances was placed in nomination for a given office: For grand master, J. E. C. F. Harper, of Madison; for deputy grand master, C. C. Binkley, Richmond; for representative to the Sovereign Lodge of America, L. T. Michener, Indianapolis. The board of trustees was nominated, and twenty or thirty gentlemen were placed in nomination for the office of grand Warden.

A Card from Mr. O'Rourke.

To the People.

MR. EDITOR—Some brilliant, political aspirant has sent out a circular purporting to give my statement to the state board of equalization in 1886. His circular is signed "The Record," the author not putting his name to it.

I do not propose to deny the statement therein made, as I do not recollect what was said on that occasion. Of one thing the people may be fully convinced viz: that I was then looking after the interests of the Grand Rapids and Indiana railroad company, and as an honest man I tried to do my full duty towards it, just as faithfully as I would look after the interests of the people, if they should trust me with their affairs.

No one but a shallow demagogue would send out such a circular for the purpose of trying to injure me, unless he thinks the people are simple, but he will find that they are not.

The people have known me for many years, and they also know that if I have faithfully and honestly tried to do my duty for my employers, that it is the best evidence possible that if the people should employ me, that I would do the same for them.

I would much prefer that the sneaking demagogue, who sent out the circular would charge me with having done what I could honestly for the company, than to say that I played the hypocrite, as he has done, and deceived my employers, as such evidence would tend to the opinion that I would also, if I had the chance, deceive the people.

P. S. O'ROURKE.

Dr. Bowen Honored.

The state society of homeopathists closed their meeting, at Indianapolis, yesterday by electing the following officers:

President—G. W. Bowen, of Fort Wayne.

First Vice President—J. T. Boyd, Indianapolis.

Second Vice President—E. P. Jones, Marion.

Secretary—E. B. Grosvenor, Richmond.

Treasurer—J. S. Martin, Muncie.

INDIANA METHODIST DELEGATES.

How They Voted on the Question of Admitting Women Delegates to the General Conference.

As there is a good deal of curiosity to know how the Indiana delegates to the Methodist Episcopal general conference voted on the subject of admitting women as delegates to that body, the information is furnished as follows:

THOSE VOTING IN FAVOR WERE:

Ministers—C. G. Hudson, F. T. Simpson, E. G. Holdstock and C. W. Lynch, of the North Indiana conference.

Laymen—Hon. David E. Beem, M. L. B. Sefrit, of the Indiana conference; J. S. Baker and C. L. Henry, of the North Indiana conference; Prof. J. C. Ridpath, of the Northwest Indiana conference; Hon. Eli F. Ritter and ex-Gov. Will Cumback, of the Southeast Indiana conference. Total, 11.

Those voting against were:

Ministers—Dr. A. Martin, H. J. Talbott, W. R. Halstead, of the Indiana conference; S. P. Colvin, R. D. Utter, W. H. Hickman, of the Northwest Indiana conference; J. S. Tevis, W. R. Lathrop, of the Southeast Indiana conference.

Laymen—A. R. Colburn, of the Northwest Indiana conference. Total, 9.

The vote was taken on the eligibility of women delegates as members of the general conference under the present constitution and law of the church.

Robert McWade To-Night.

Robert McWade, who years ago made a decided hit in his dramatization of Washington Irving's story, "Rip Van Winkle," appears at the Temple opera house to-night. In many particulars Mr. McWade's idea of the part differs from that of Jos. Jefferson, who presents Dion Boucicault's of the same familiar story.

Abundant in pathos, full of incidents, the play has lost no popular features in its many years before the public. As the familiar *Rip Van Winkle* Mr. McWade can not be excelled. He mingles the characteristic good nature and native wit with his overpowering remorse most artistically. There is quite a sale of seats for to-night's performance.

A Great Battle

Is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. A good reliable medicine like Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore peace and bodily health for many years. Try this peculiar medicine.

HARDLY a man, whatever his circumstances and situation, but if you get his confidence, will you tell that he is not happy. It is, however, certain that all men are not unhappy in the same degree. Is not this to be accounted for by supposing that all men measure the limited happiness they possess by the happiness they desire, or think they deserve?—*Greville.*

There is no danger to human life more to be dreaded than that which arises from vitiated blood. Dyspepsia, rheumatism, headache, and general debility, all result from it, and are cured by the use of Ayer's Sarsaparilla. Take it this month. Six bottles, $5.

A NEW DEPARTURE.

BY CAPT. ROBERT H. HARRISON.

My faith in party is found out
Since I have left the clan,
A hot republican I have been,
But now with Cleveland I stand.

No more will I march and toe the mark
With the gallant high tariff crew.
But take a back seat when democrats meet
And go in for reform, tis true.

A House Cleaning Soliloquy.

By O. L. Perry.

Tell me, ye winged winds that round my bicycle roar, do ye not know some quiet spot where wives clean house no more; some lone, sequestered, leafy dale, some island girt, where life is not one ceaseless war with cobwebs and with dirt; where only nature's carpet spreads beneath their tired feet, and wretched men are ne'er compelled its emerald folds to beat? The light breeze fanned my heated face and said: "Beat on, there's no such place."

SOME DOCTORS honestly admit that they can't cure Rheumatism and Neuralgia. Others say they can but—don't. Ath-lo-pho-ros says nothing but—*cures.* That's the secret of its success. Years of trial have *proved* it to be a *quick, safe, sure* cure.

Concord, N. H., Sept. 3, 1887.
In my own family Athlophoros was used as a last resort, the user having suffered from rheumatism for years and having been treated for the disease by different physicians in this State and Massachusetts without even temporary relief. Upon my recommendation scores of people have used this remedy with the same results claimed for it. C. H. WILSON.

Dubuque, Iowa, Jan. 3, 1888.
Athlophoros has completely cured me of nervous headache, and I feel thankful for all the good it has done me. Mrs. LOUISE GREBBY.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

CORNER OF MAIN AND BARR STREET,

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Baine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, **Stomach and Bowel Complaints** are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

HOWLING DERVISHES.

A Frizzled Baby of Three Years Takes Part in Their Ceremonies.

To-day we set out to witness some of the religious rites of the Refaee, or the howling dervish, says a Constantinople letter to the San Francisco *Chronicle:*

Around three sides of the low room were galleries; some closely latticed and occupied by Turkish women, others open and filled with curious spectators like ourselves. On the main floor were spread many rugs of Angora goatskin, on which were seated old men, regular patriarchs in appearance, while two groups of little children were ranged behind them. Seated close to the low railing were rows of men clothed in the flowing dervish mantle and tan-colored "galuph"—a tall, brimless felt hat, strongly resembling an inverted flower-pot, bound round the head by a long black scarf with ends left flowing. These ends were at intervals in the course of the service tenderly pressed to the lips. At other times the eyes were carefully wiped with these mourning badges.

Conspicuous before the high priest stood a lithe figure with a pale, cadaverous countenance, but a keen, penetrating eye, who was slowly manipulating a long, white scarf. He first threw it around his shoulders, thus symbolizing the all-embracing love of Allah; then binding it tightly about his waist he began tying and untying it, each knot having a particular significance. His whispered words will bear this interpretation: "I tie up greed; I untie charity. I tie up hate; I untie love. I tie up pride; I untie humility." And so on through a long list. Then began a monotonous chant that soon swelled to a tremendous howl. All rose to their feet and kept time with swaying body and jerking head in a frantic manner. The old and feeble among them gradually dropped out of the circle and took seats on rugs near the center of the room, beside the rows of standing children. At length the eyes of the spectators became riveted on the face and figure of a little three-year-old baby, which stood for two long hours swaying its frail body in perfect unison with the dervishes and with its rosy cherub mouth uttering the same indescribably impressive cry of Allah! When the rude throng had at length worked themselves up to a state of religious frenzy, the little boy also rolled his bright eyes about as if beholding a heavenly vision. I can compare this worship to nothing I have ever witnessed, unless it be the intense excitement exhibited at meetings among the "colored brethren" on a southern plantation in the "old slave times" in our own country. One who has seen those impressionable people shouting, jumping, and falling down with "the power" can imagine something of the harrowing spectacle before us to-day.

To my mind nothing was so impressive as the power of endurance shown by the infants on exhibition. I shudder when I think of the torture they must have been subjected to in the private drill necessary to prepare them for such a performance in public. Some of the children seemed free to pass out and in at will, but the tiny boy spoken of above and a little girl (a hunchback) never left their posts a minute, nor ceased to sway their bodies and shout until the performance was concluded, by a louder clapping and howling, more violent jerking of the head, and wilder tumult than before. Then a sudden hush, when, without a signal or nod from anyone, this lovely little baby demurely marched up to the high priest to receive his blessing, then laid him down, his face to the ground, before the venerable man. Another, who appeared to be a high priest of the order, now took the stalwart priest by the hand while he placed both feet on the body of this frail infant and stood with his face turned upward, while he muttered what appeared to be a prayer. Then other children followed. First came the little hunchback, then three or four at a time, finally ten or twelve laid down, forming a human "corduroy road" for the high priest to walk over, until at least twenty children had thus recived his blessing and had the evil spirit driven out of them. The ceremony is supposed to be a panacea, and there are always numbers of invalids brought to the Take during services to be cured of some real or imaginary ill. One aged man laid down to be walked upon to-day, and one little boy, who was brought in by his devout and devoted father, refused utterly to be comforted in this manner, and was carried out most boisterously victorious.

Paste Diamonds.

"The great majority of people cannot tell the difference between paste and real diamonds in a ballroom," said a well-known jeweler to a New York *Telegram* reporter, "and there are more people who wear paste than one would think. Once I was the assistant of a fashionable jeweler in Washington. It was then a common thing to loan out paste to ladies who had not security to give for real diamonds."

"What do you charge for those paste outfits?" the reporter asked.

"Generally about $25. Once a pretty girl from one of the Western States hired one of these paste sets from us for a ball and captured the heart of a wealthy French Count—not one of the shady kind, but a real Count, rich as a Crœsus, who was on a visit to this country, and after a short courtship they were engaged to be married.

"He obtained for her an invitation to the next, official reception, for which we lent her real diamonds and sent our detective to watch them.

"When she came back with them she said: 'O, I wish you had given me real diamonds like you did the first time. These last were paste, and any one could see by their dullness that they were not diamonds at all.'

"I didn't say anything, but shortly after when she obtained the loan of an outfit we gave her the paste set and she came back highly pleased with the change.

"In a few days she had no need to hire diamonds. Her lover bought her plenty of them."

Curious Freaks of Lightning.

Much interest has been manifested upon the subject of fireballs, of globular lightning, since mention was made in the Atlanta *Constitution* of a large specimen having been seen here during a recent storm. It appears that they are much more common than is generally supposed, a number of instances having been cited where they appeared recently in this city. A young man sitting at a table saw one suddenly make its appearance, poised directly over the table. During a thunder-storm here recently a horse was struck by lightning, and two men who were near it were felled to the floor of the stable where they were. In the dwelling-house upon the same lot the persons in each of the rooms saw a ball of fire. A negro laborer known as Davy, upon Mr. J. M. Tift's saud-hill plantation affirms that while the storm was raging, and when the lightning was playing havoc with the cabin on that place, a ball of fire suddenly appeared directly before him. It burned off his eyebrows and he had to brush it from before his face. While globular lightning may be more common than is generally supposed, it remains for a gentleman connected with the *News and Advertiser* to have seen a still more singular sight. It was nothing more or less than phosphorescent fire, or will-o'-the-wisp, which emerging from the banks of the Flint river, during the recent overflow, in the shape of a ball of fire, arose above the tree tops. This ghastly fire-ball made its appearance just as the corpse of the unknown man was seen drifting down the swollen current of the river—his face, calm after the agony of death, upturned to the pitiless sky.

"Lightning shows some queer freaks," said an old citizen. "Many years ago in a then new town near Apalachicola, Fla., a gentleman stepped into the office of the tavern, which had a bar on one side and was a combined bar-room and office. A streak of lightning came down the chimney, shattered the large mirror over the mantlepiece, and fired the pieces of glass across the room. One of them struck the gentleman in the neck, cutting his jugular vein. He died before help could reach him. A man who was sitting in a chair leaning back against the mantelpiece had a narrow escape. The lighting passed down his side and came out at his boots doing no injury. He had imbibed freely of whisky and was in an intoxicated condition. Back of the bar the decanters and their different colored liquids were tastefully arranged. The lightning struck and shattered every bottle of brandy; the whisky was untouched. The inhabitants of that town confined themselves to whisky after that occurrence."

Sachet-Bags for Ladies.

It is a new fad with Washington girls to wear many little sachet-bags fastened to ribbons of various colors hanging from their throats. The bags are not much larger than an ordinary thimble and suspended by narrow ribbons, cut at different lengths and bowed with many loose ends just under the chin. They are made to represent meal sacks and look like camphor-bags designed to keep off the measles and other diseases, by some supposed to fear that fragrant drug. They do not, however, contain camphor. It is proper that they should be made from bits of silk or satin taken from young men's ties. Each bag is supposed to represent one admirer, and, like scalps, numbers count to build up the pride of the wearer. They are stuffed with cotton and it is considered nice to have them each scented with the peculiar perfume which is most favored by the young man from whose tie it is made. Young men, often from economical motives, send scraps of old ties to be used for this purpose, but it is much more a matter of satisfaction for the young lady to know that her influence is so great that she can cut the silken ends from his neck without protest.—*Philadelphia Telegraph.*

Two great enemies—Hood's Sarsaparilla and impure blood. The latter is utterly defeated by the peculiar medicine.

In 888 the Church of England leased to the crown a piece of land for 999 years, or on what is termed a "perpetual lease." The time has expired, and now the property reverts to the church. Here is a document in force, made away back in the days of King Alfred, compassing a millennium, less one year, and now, after this long period, the occupants must vacate. How strangely this event links the present with the past, and what a proof of the majesty of the law and the stability of the English Government.

COL. CHAILLE LONG is one of the most varied men of the day. He has made a reputation in all parts of the world and in pretty much all countries of the world. At 24 he was a Colonel in the Northern army. Somewhat later he was naval commander in the Egyptian service, and his good qualities made him a favorite with the Khedive. From that high estate he evoluted to a Consulship, and then became clerk in a New York court. During the bombardment of Alexandria and the exciting incidents connected therewith he was in that city as Consul, and by his bravery and intelligence spared much life and suffering. He then became an advocate in Paris, and shortly after a club man in New York. He is about 49 years of age.

THE late Emperor William one evening at Baden Baden noticed an officer in civilian dress trying his luck at trente-et-quarante, a pastime forbidden to army officers. He had placed two or three louis on the table and had won a nice little sum, when he saw the King opposite. He turned pale, trembled, and hesitated to take possession of his money. Thereupon King William approached and whispered in his ear: "Don't be afraid. Take in your money, but don't do it again."

ECHOES OF THE RAIL.

It Was a Rainy Day, but Our Reporter Made His Rounds and Gathered a Big News Budget.

John Backes, of the Pittsburg boiler shops, is on the sick list.

Engineer Wough, of the Pittsburg, is recovering from his illness.

A number of the clerks in the railroad offices of this city are expert bicyclists.

The electric light works have made several shipments of arc lights this week.

Charles Gumpper will succeed C. H. Kendrick as supply agent on the Nickel Plate.

The Pittsburg pay car was still in the city this morning, but left for the west at noon.

The employes of the Nickel Plate railroad in this city received their month's pay today.

F. M. Cherry, of the Pittsburg boiler shops, was taken sick this morning and was compelled to quit work.

Engineer Kleber has returned from Lima, where he has been running a switch engine for several weeks.

Harry Monks, traveling freight agent of the Canada Southern, was in the city yesterday. His headquarters are at Detroit.

John McClarty, a fireman on the Nickel Plate, will cast his first vote next fall. He passed his majority last Wednesday.

Mr. George H. Judy, the foreman of the Pittsburg blacksmith shops, went to Chicago this morning on business for the company.

Mr. J. Deetere, formerly an engineer on the Pittsburg in this city, but now living at Harrisburg, Pa., is visiting friends here.

The steam hammer in the blacksmith shops of the Bass works has been repaired. This department of the works is kept very busy.

It is thought that Mr. O. B. Sears, the Pittsburg brakeman who was injured lately, cannot recover. He is in a hospital at Valparaiso.

The excursion business will soon be in full blast and this summer will probably see more of them than we have probably had before. Several are already announced for near dates.

A new engine was turned out of the Pittsburg shops this week and during its trial trip broke a piston rod. It was returned for repairs and left the shops again to-day in good order.

A big train load of emigrants passed through the city yesterday on the Pittsburg road and Orin Ross, the assistant ticket agent, made love to one of the pretty frauleins as they were waiting at the depot.

Fred Fisher, machinist at the Organ factory, was at the Bass works this morning looking after some work which his firm is having done there. He tells our reporter that the Organ factory are now turning out about sixty organs a week.

The Pittsburg shops are still engaged in building new locomotive engines, although the order given at the first of the year has been greatly reduced. The work in progress is on five new engines, which are to be built during the next seven months.

Christian Eberwein, one of the veteran machinists in the Bass works is lying very low at his home on Walton avenue, with dropsy of the heart. His condition was very serious last evening and it was thought he could not live long. Mr. Eberwein has been in the employ of the Bass works for over eighteen years and has a host of friends who wish for his restoration to health.

J. C. Kensill, in addition to his many other accomplishments, is one of the best posted men in the Pittsburg shops in ancient and modern history, so the boys say, and they ought to know. Jack admits, however, that he was not at the building of King Solomon's temple or with Noah in the ark, but Robert Harrison seems inclined to doubt this and insists that he saw him at both these places.

Pay day is here, so is L. O. Hull with a line of gold wall paper at 9 cents a roll; same paper sells at other stores at 10 to 25 cents a roll. Now is the time to get a bargain. 17-3t

As has frequently been hinted in this paper, no insects are to be found upon the lines of men's and ladies' fine $2 shoes at the Hoosier Shoe Store.

THE JENNEY LIGHT.

The Term "Sugar" Creates a Stir at the Capital—A Nice Contract Down There.

The Indianapolis *News*, of last evening says:

The publication of a telegram intended for J. P. Smith, but which fell into the hands of Alderman Smith, by the *News* yesterday, wherein was the sentence, "sugar, if necessary," created a stir in electric light circles, and the competitors of the Fort Wayne company are making the most of the situation. Mr. J. P. Smith indignantly repudiates the idea that Mr. McDonald, the sender of the telegram, contemplated bribery of the council or aldermanic board, and says it was in response to a phrase used by himself, in which he wrote to McDonald, telling him of the sharp rivalry, and suggesting that it would be a good idea to take the representatives of the city on a trip to Fort Wayne and other points, where they could see the practical workings of the plant. He also told McDonald that to furnish transportation and entertainment would require considerable "sugar," meaning thereby money, and that in reply, the same expression was adopted. Nothing but a legitimate expenditure of money was contemplated, either by himself or the company.

The Indianapolis *Sentinel* and *Journal* do not take kindly to the "sugar" phrase and editorially advise the council to avoid the Fort Wayne company, even in the face of its plausible explanation.

The Indianapolis Cyclorama company yesterday closed contracts with the Atlas engine works for one of their largest engines and boilers and with the Fort Wayne Jenney Electric Light company for a system of thirty arc lights. Three will shine out from the flag staff above the building, while the rest will illuminate the panorama. Steam heat will be furnished by the same plant, which, complete, will cost about $4,000.

So the Jenney spark will shine at Indianapolis, just the same.

FREEMAN-WILD.

A Pleasant Wedding at the Freeman Homestead Last Evening.

The pleasant Freeman homestead, on Spy Run avenue, was the scene of a brilliant wedding last evening.

The occasion was the marriage of Fredric Leslie Wild to Miss Marie Freeman, one of Fort Wayne's most accomplished society ladies.

At 6 o'clock Mr. Freeman and Mr. Wild, brothers of the bride and groom, led the wedding party into the parlor. Here, midst most charming surrounding, Rev. Mr. Wagenhals, of the Trinity Lutheran church, pronounced the ceremony sacred.

A reception followed and the guests, some seventy-five in all, paid their compliments to Mr. and Mrs. Wild.

Reinecke's orchestra discoured music and an elegant feast was served by Sidei.

Mr. and Mrs. Wild left on the night train for Orange, N. J., their future home.

They were the recipients of very many rich and costly gifts from their relatives and friends.
